

OdoServeTM

Odour Control

“OdoServe is misted in the atmosphere to engulf the odour molecule”

OdoServe can be used in different industries / public toilet / dumping grounds to eliminate odour, most of the odour control products available in the market claim to hide or cover unpleasant odour but OdoServe chemically converts unpleasant smell in to non-odorous.

Benefits

- It's a nontoxic and safe to use
- It is not a masking agent
OdoServe doesn't replace the odour, it kills it
- OdoServe is completely natural & eco friendly
- It is bio degradable in nature

Application Industries

- Chemical and Pharmaceuticals
- Composting and dumping ground
- Public toilets / sewage Treatment plant
- Food Processing

Any Odour - Any Industry - OdoServe

OdoServe – an odour removing organoleptic compound
